23 On March 11, 2013, Plaintiff Sydrian Lofton ("Lofton") requested administrative relief  
24 from the scheduling order for cases asserting denial of right of access under the Americans with  
25 Disabilities Act ("ADA"). The scheduling order requires that a site inspection take place no later  
26 than March 27, 2013. Lofton indicated that the parties were unable to arrange a time before that  
27 deadline for the site inspection to take place. Accordingly, no later than April 26, the parties are to  
28 arrange a site inspection if they have not already done so.

**IT IS SO ORDERED.**

Dated: April 17, 2013
